MANAGEMENT DISCUSSION AND ANALYSIS

The company is engaged in the business of manufacturing and trade of Indian Made Foreign Liquor (IMFL) under our own brand portfolio as well as under tie up arrangements with other companies. The IMFL comprises of whisky, Brandy, Rum, Gin & Vodka. We started our initial capacity of 7,20,000 cases per annum and a bond capacity 6300 cases of Excise Bonded warehouse. Presently our plant is having an installed capacity of 14,25,000 cases per annum and 26000 cases of Excise Bonded warehouse.

During the year, the total Income from operations was Rs. 3819 lakhs compared to Rs 4076 lakhs in the previous year recording a reduction of Rs. 257 lakhs. The net loss was Rs. 580 lakhs as against the Loss of Rs. 194 lakhs in the previous year.

Business Outlook

India is currently the 3rd largest market for branded alcoholic beverages in the world by volume, and the global spirits industry is estimated at over 2 billion cases per annum with India accounting for about 12% at 236 million cases per annum without considering 300 million of country liquor. The Indian Alcohol Industry has grown rapidly in recent years primarily due to favorable demographic trends, substantial economic growth, increased per capita consumption and a marked shift in societal acceptance of alcohol consumption. Sales of alcoholic drinks continue to be driven by urban consumption in the country. IMFL comprises one third of the total liquor consumption in India and has been growing at a CAGR of more than 10% over the last five years. In IMFL, Brown spirits constituted the largest segment with whisky, brandy and dark rum accounting for 95% of the market, by both volume and value while white spirits with gin and vodka having only 5% market share. However the International trends are opposite where white spirits enjoys prominent presence.

Demand for spirits in India is expected to grow at a 10% CAGR during. Key drivers for this growth will be higher per capita incomes, increasing social acceptance of alcohol in India, brand exposure, availability and the shift towards branded spirits by country liquor consumers. The growth will be also due increasing urbanization and young adults reaching the age to be eligible to drink. However, presently the growth rate are moderate compared FY12 due to high base effect.

The Indian IMFL market is dominated by low-priced whisky. The whisky segment constitutes almost 60% of the total IMFL market. 17% & 18% is brandy and Rum and the rest 5% is white spirits. The maximum consumption is in Andhra Pradesh followed by Karnataka and Maharashtra.

Risk Factors:

Government regulations affects the Indian Liquor industry introducing structural rigidities. Apart from the high level taxes and levies regulations pertaining to licensing creation or expanding of brewing / distillery and bottling capacities , manufacturing process (grain based and molasses based), distribution and advertising impinge on the industry. Further liquor being a state subject, every state has different regulations (including those on distribution) and tax rate for the industry apart from restrictions as well as levies on the inter- state movement of liquor.

Future Outlook:

During current year, your Company will try to achieve maximum capacity utilization in our existing plant at Pondicherry. The Company has already tied-up with M/s. Radico Khaitan Limited for bottling their brands for Andhra Pradesh. The Company is looking forward for further tie-ups to increase its business.

INDEPENDENT AUDITOR'S REPORT

To,
The Members of **RAVIKUMAR DISTILLERIES LIMITED.**

Report on the Financial Statements

We have audited the accompanying financial statements of '**RAVIKUMAR DISTILLERIES LIMITED**' ("the Company"); which comprise the Balance Sheet as at **31st March, 2014**, and the statement of Profit & Loss Account & Cash flow Statement for the year ended, and a summary of significant accounting policies and other explanatory information.

Management Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matters

Without qualifying our opinion, we draw attention to the following :

Though the company has filed various cases against the parties and initiated action for recovery, we are unable to comment on realisability/recoverability of these debts and advances given and no provision for doubtful debts is considered necessary by the company. The impact on the loss for the year and current assets, if any, is unascertainable.*
- b. *Reference is invited to Note No. 13 regarding 'Investment in Liquor India Limited' and 'Advance received from 'Lemonade Shares & Securities Private Limited' (Refer Note No. 10.1) which is considered as disputed and no adjustment for sale thereof have been incorporated in the financial statements by the Company. Management does not anticipate any liability on this account. However, since the matter is pending before court, we are unable to comment whether, any adjustments are needed or the recoverability of investment thereof. Accordingly, impact on loss for the year and Investments thereof, if any, is unascertainable.*

Opinion

NOTES TO FINANCIAL STATEMENTS :

1. General Information :

The Company was incorporated during the year 1993 and is engaged in the business of manufacture and sale of Indian Manufactured Foreign Liquor (IMFL). The Company has its manufacturing unit at Pondicherry.

2. Significant Accounting Policies :

2.1 Basis of preparation of Financial Statements :

The Financial Statements have been prepared in accordance with the generally accepted accounting principles ('GAAP') applicable in India under the historical cost convention on accrual basis. These financial statements have been prepared to comply in all material aspects with the accounting standards notified under Section 211 (3C), Companies (Accounting Standard) Rules, 2006, as amended from time to time and the other relevant provisions of the Companies Act, 1956.

All Assets and Liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule VI of the Companies Act, 1956.

2.2 Use of Estimates :

The preparation of Financial Statements in conformity with GAAP requires that the management of the Company makes estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. Actual results could differ from these estimates. Difference between the actual results and estimates are recognized in the period in which the results are known / materialized. Management believes that the estimates used in preparation of financial statements are prudent and reasonable.

2.3 Tangible Assets :

Tangible Assets are stated at cost (or revalued amount as the case may be) less accumulated depreciation and accumulated impairment losses if any. Cost comprises purchase price and any other attributable cost of bringing the asset to its working condition for its intended use. Subsequent expenditure related to an item of fixed asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

Gain or loss arising from de-recognition of assets are measured as the difference between the net disposal proceeds and the carrying amount of the assets and are recognized in the statement of profit and loss when the asset is derecognized.

Depreciation on fixed assets is provided on written down value method (WDV) at the rates and in the manner prescribed in Schedule XIV to the Companies Act, 1956 over their useful life. Depreciation of asset sold / discarded during the period is proportionately charged. Individual low cost assets (acquired for less than Rs 5000/-) are depreciated within a year of acquisition. Intangible assets are amortized over their estimated useful life on a straight line basis.

2.4 Borrowing Costs :

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that takes necessarily substantial period of time to get ready for its intended use. All other borrowing costs are charged to revenue.

2.5 Impairment of assets :

As on Balance Sheet date, the Company reviews the carrying amount of Fixed Assets to determine whether there are any indications that those assets have suffered "Impairment Loss". Impairment loss, if any, is provided to the extent, the carrying amount of assets exceeds their recoverable amount. Recoverable amount is higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from continuing use of an asset and from its disposal at the end of its useful life.

2.6 Investments :

Investments that are readily realizable and intended to be held for not more than a year are classified as "Current Investments". All other Investments are classified as Long Term Investments.

Current Investments are carried at lower of cost or Market / Fair Value determined on an individual investment basis.

Long Term investments are valued at cost. Provision for diminution in the value of long term investment is made only if such decline is other than temporary in nature.

2.7 Grants and Subsidies :

Grants and Subsidies are recognized when there is reasonable assurance that the Grant / Subsidy will be received and all attaching conditions will be complied with. When the grant or subsidy relates to a revenue item it is recognized as income over the period necessary to match them on a systematic basis to the costs, which it is intended to compensate.

Where the Grant on subsidy relates to an asset its value is deducted in arriving at the carrying amount of the related asset.

2.8 Revenue Recognition :

The company is in the business of manufacture and sale of IMFL products. Sale of goods are recognized when the goods are dispatched / on passing title of the Goods to the customers. The sales are accounted by including the scheme / discounts / Excise Duty and Sales Tax. The Scheme discounts / Sales Tax are charged off separately to the Profit and Loss Account. Profit on sale of investments is recorded on transfer of title from the company and is determined as the difference between the sale price and the carrying value of the investment. Interest is recognized based on time-proportion method based on rates implicit in the transaction.

2.9 Inventories :

Inventories are valued at lower of cost and estimated net realizable value after providing for cost of obsolescence and other anticipated losses, wherever considered necessary. Cost includes taxes, duties and all incidental expenses directly attributable to the purchases.

Method of assignment of cost is as under:

Raw Material, Stores & Spares : Weighted average cost basis

Work – in – progress : Direct expenses plus appropriate Factory overheads on the basis of completed production

Finished Goods : Cost of goods, direct expenses plus appropriate Factory overheads and Excise Duty

Traded Goods : Actual cost Basis

The company contributes a fixed sum to the Provident Fund / Employees State Insurance Scheme maintained by the Central Government. The contribution paid / payable under the schemes is recognised during the period in which the employee renders the related service.

2.12 Tax Expense :

Tax expenses for the year comprise of current tax and deferred tax. Current tax is measured after taking into consideration the deductions and exemptions admissible under the provision of Income Tax Act, 1961 and in accordance with Accounting Standard 22 on "Accounting for Taxes on Income".

Deferred Tax represents the tax effect of timing differences between taxable income and accounting income for the reporting period and is capable of reversal in one or more subsequent periods. Deferred tax are quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet Date.

Deferred Tax Assets are recognized and carried forward only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax asset on unabsorbed depreciation and carry forward of losses are not recognized unless there is virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

2.13 Contingent Liabilities and Provisions :

- Possible obligation which will be confirmed only by future events not wholly within the control of the company or
- Present obligations arising from the past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation can not be made.
- Contingent Assets are not recognized in the financial statements since this may result in the recognition of income that may never be realized.

2.14 Earnings Per Share :

In determining the Earnings Per share, the company considers the net profit after tax including any post tax effect of any extraordinary / exceptional item. The number of shares used in computing basic earnings per share is the Weighted average number of shares outstanding during the period. The number of shares used in computing Diluted earnings per share comprises the Weighted average number of shares considered for computing Basic Earning per share and also the weighted number of equity shares that would have been issued on conversion of all potentially dilutive shares.

In the event of issue of bonus shares, or share split the number of equity shares outstanding is increased without an increase in the resources. The number of Equity shares outstanding before the event is adjusted for the proportionate change in the number of equity shares outstanding as if the event had occurred at the beginning of the earliest period reported.

2.15 Leases :**Finance Lease**

Leases which effectively transfer to the company all the risks and benefits incidental to ownership of the leased item, are classified as Finance Lease. Lease payments are apportioned between the finance charges and reduction of the lease liability based on the implicit rate of return.

The generally accepted accounting principles used in the preparation of the financial statements are applied to record revenue and expenditure in individual segments.

Segment revenue and segment results include transfers between business segments. Such transfers are accounted for at the agreed transaction value and such transfers are eliminated in the consolidation of the segments.

Expenses that are directly identifiable to segments are considered for determining the segment result. Expenses, which relate to the company as a whole and are not allocable to segments are included under unallocated corporate expenses.
