## MANAGEMENT DISCUSSION AND ANALYSIS REPORT

### GLOBAL ECONOMY

The global economy grew at 3.4% in 2022 compared to a growth of 6.2% in 2021 according to the World Economic Outlook, released by the International Monetary Fund (IMF) in April 2023. This slowdown was primarily due to rising central bank rates as a result of high inflation, the impact of the Russia- Ukraine conflict, and sluggish economic activity in China due to a resurgence of Covid-19 pandemic. IMF forecasts the global growth to decline to 2.8% in 2023 and then rise again to 3.0% in 2024, dipping below the pre-Covid-19 pandemic historical average of 3.8% (for the period 2000-2019). IMF expects global inflation to decline in 2023 and 2024, from 8.7% in 2022 to 7.0% in 2023 and 4.9% in 2024. Global headline inflation peaked during the third quarter of 2022, according to IMF. The lower inflation estimates for 2023 are partly due to decline in international fuel and non-fuel commodity prices, as well as the cooling effects of monetary policy tightening. IMF expects the emerging and developing Asia to grow by 5.3% and 5.1% during 2023 and 2024, respectively.

In 2022-23, elevated core inflation led the Reserve Bank of India (RBI) to maintain a tighter stance on the economy. RBI estimates headline inflation to be at 6.8% in 2022-23. However, RBI expects inflation to moderate in 2023-24 to 5.3%, but remain well above its 4% target.

The Government of India's budgeted estimate for capital expenditure outlay in 2022-23 increased by 35.4% from around ₹ 5.5 Lakh Crores in 2021-22 to an estimated ₹ 7.5 Lakh Crores for 2022-23. Further, the Union Budget of 2023- 24 has allocated a substantial amount of approximately ₹ 10 Lakh Crores for the country's infrastructure development. This is likely to be a key growth driver for the Indian economy amid the current volatile macroeconomic conditions.

### INDIAN ECONOMY

As per the Economic Survey 2022-24, India's economic growth in FY23 has been principally led by private consumption and capital formation and they have helped generate employment as seen in the declining urban unemployment rate and in the faster net registration in Employee Provident Fund. Moreover, World's second-largest vaccination drive involving more than 2 billion doses also served to lift consumer sentiments that may prolong the rebound in consumption. Still, private capex soon needs to take up the leadership role to put job creation on a fast track.

It also points out that the upside to India's growth outlook arises from (i) limited health and economic fallout for the rest of the world from the current surge in Covid-19 infections in China and, therefore, continued normalisation of supply chains; (ii) inflationary impulses from the reopening of China's economy turning out to be neither significant nor persistent; (iii) recessionary tendencies in major Advanced Economies (AEs) triggering a cessation of monetary tightening and a return of capital flows to India amidst a stable domestic inflation rate below 6 per cent; and (iv) this leading to an improvement in animal spirits and providing further impetus to private sector investment.

The Survey says, the credit growth to the Micro, Small, and Medium Enterprises (MSME) sector has been remarkably high, over 30.6 per cent, on average during Jan-Nov 2022, supported by the extended Emergency Credit Linked Guarantee Scheme (ECLGS) of the Union government. It adds that the recovery of MSMEs is proceeding apace, as is evident in the amounts of Goods and Services Tax (GST) they pay, while the Emergency Credit Linked Guarantee Scheme (ECLGS) is easing their debt servicing concerns.

Apart from this, increase in the overall bank credit has also been influenced by the shift in borrower's funding choices from volatile bond markets, where yields have increased, and external commercial borrowings, where interest and hedging costs have increased, towards banks. If inflation declines in FY24 and if real cost of credit does not rise, then credit growth is likely to be brisk in FY24.

### COMPANY

The company is engaged in the business of manufacturing and trade of Indian Made Foreign Liquor (IMFL) under our own brand portfolio as well as under tie up arrangements with other companies. The IMFL comprises of whisky, Brandy, Rum, Gin & Vodka. We started our initial capacity of 7,20,000 cases per annum and a bond capacity of 6300 cases of Excise Bonded warehouse. Presently our plant is having an installed capacity of 14,25,000 cases per annum and 26000 cases of Excise Bonded warehouse.

During the year, the total Income from operations was Rs. 7621.95 lakhs compared to Rs. 2784.65 lakhs in the previous year recording a net loss of Rs. (217.76) lakhs, as against the net loss of Rs. (1307.44) lacs in the previous year.

#### Business Outlook:

Indian alcohol market has been flourishing since 2001 and registered growth between 7-12% till 2011 when the growth declined due to heavy import taxes, state government taxes, excise duty and political instability in election season. The year 2013 was a great fall in Indian alcohol market when the spirits volume actually declined by 2-3% in India. Alcohol industry is a part of huge US\$ 12 billion beverage industry of India excluding milk and milk products.

Indian alcohol market is dominated by whisky which falls under spirit category. However, the wine market is expected to show highest growth in the future. The Indian alcohol market is broadly segmented as spirits, beer and wine. Spirits are further sub-segmented into whisky, rum, brandy, vodka, gin and others.

Consumers are largely inclined towards quality alcohol due to increasing disposable income and better standard of living. Other drivers include greater inclination towards social drinking as well as women indulging into alcohol consumption. As India has huge youth population, the demand of alcohol would remain high in the coming years. The market saw a boom in Vodka sales. Youth largely prefer beer and the salaried youth are inclined toward whisky and rum.

There exist quite a few restraints in the market such as high taxes, stringent government regulations on manufacturing and selling liquor, and ban on advertisements among others. Alcohol consumption is also subjected to the overall economy's growth in terms of gross net income per capita and household expenditure. Thus, development in the economy would give a thrust to the alcohol market further but less pronounced.

One of the most notable trends is the demand of premium liquor among the consumers. The growth of premium segment would surpass the overall growth of alcohol market due to greater exposure towards foreign brands. India has seen a burst of high net worth individuals in past two decades and the list is ever increasing, which would fuel the growth of market in premium segment.

**Risk Factors:**

Government regulations affect the Indian Liquor industry introducing structural rigidities. Apart from the high level taxes and levies regulations pertaining to licensing creation or expanding of brewing / distillery and bottling capacities, manufacturing process (grain based and molasses based), distribution and advertising impinge on the industry. Further liquor being a state subject, every state has different regulations (including those on distribution) and tax rate for the industry apart from restrictions as well as levies on the inter-state movement of liquor.

**Future Outlook:**

During current year, your Company will try to improve the performance with applying optimistic efforts.

#### **Information other than the Financial Statements and Auditor's Report thereon**

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the standalone financial statements and our auditor's report thereon.

Our Opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusions thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

#### **Responsibility of Management and those charged with Governance for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, (changes in equity)[iv] and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the company's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation. Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements. .

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare

circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Report on Other Legal and Regulatory Requirements**

**“Annexure-2” to the Independent Auditors’ Report of even date to the members of ‘RAVI KUMAR DISTILLERIES LIMITED’ on the financial statements for the year ended March 31, 2023**

Referred to in paragraph 14(f) of the Independent Auditors’ Report of even date to the members of Ravi Kumar Distilleries Limited on the financial statements for the year ended March 31, 2023

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act**

1. We have audited the internal financial controls over financial reporting of Ravi Kumar Distilleries Limited (“the Company”) as of March 31, 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

**2. Management’s Responsibility for Internal Financial Controls**

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**3. Auditors’ Responsibility**

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

**6. Meaning of Internal Financial Controls Over Financial Reporting**

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

**7. Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**8. Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the Internal Control over Financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## Notes forming part of the Financial Statements

### Note 1: Significant Accounting Policies

#### General Information

The Company is incorporated during the year 1993 and is engaged in the business of manufacture and sale of Indian Manufactured Foreign Liquor (IMFL). The Company has its manufacturing unit at Pondicherry.

#### Significant Accounting Policies

##### 1. Compliance with Ind AS

The Company's financial statements have been prepared in accordance with the provisions of the Companies Act, 2013 and the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time.

These financial statements include the balance sheet, the statement of profit and loss, the statement of changes in equity and the statement of cash flows and notes, comprising a summary of significant accounting policies and other explanatory information—and comparative information in respect of the preceding period.

##### 2. Basis of Accounting

The Company maintains its accounts on accrual basis following the historical cost convention except certain financial instruments that are measured at fair values in accordance with Ind AS.

Fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level I inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that entity can access at measurement date
- Level II inputs are inputs, other than quoted prices included in Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level III inputs are unobservable inputs for the asset or liability

##### 3. Presentation of financial statements

The financial statements (except Statement of Cash-flow) are prepared and presented in the format prescribed in Division II – IND AS Schedule III (“Schedule III”) to the Companies Act, 2013.

The Statement of Cash Flow has been prepared and presented as per the requirements of Ind AS 7 “Statement of Cash flows”.

Disclosure requirements with respect to items in the financial statements, as prescribed in Schedule III to the Act, are presented by way of notes forming part of accounts along with the other notes required to be disclosed under the notified Accounting Standards.

Amounts in the financial statements are presented in Indian Rupees in Lakhs in line with the requirements of Schedule III. Per share data are presented in Indian Rupees to two decimal places.

##### 4. Key estimates and assumptions

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that impact the reported amount of assets, liabilities, income, expenses and disclosure of contingent liabilities as at the date of the financial statements. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as on the date of the financial statements. Actual results may differ from the estimates and assumptions used in preparing the accompanying financial statements. Difference between the actual and estimates are recognized in the period in which they actually materialize or are known. Any revision to accounting estimates is recognized prospectively. Management believes that the estimates used in preparation of Financial Statements are prudent and reasonable.

##### 5. Foreign Currency

###### Functional and presentation currency

The financial statements of the Company are presented using Indian Rupee (INR) i.e. currency of the primary economic environment in which the entity operates ('the functional currency').

###### Transactions and balances

Foreign currency transactions are translated into the respective functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in profit or loss.

## Notes forming part of the Financial Statements

Premium/Discount in respect of forward contracts is accounted over the period of contract

### 6. Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Escalation and other claims, which are not ascertainable/acknowledged by customers, are not taken into account. Revenue is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.

Criteria for recognition of revenue are as under:

#### a) Sale of Goods

Revenue from the sale of goods is recognised when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

- i. significant risks and rewards of ownership of the goods are transferred to the buyer;
- ii. Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- iii. it is probable that economic benefits associated with transaction will flow to the Company; and
- iv. amount of revenue can be measured reliably;

b) In cases where trade contracts provide for crystallization of price or for price adjustment on a subsequent date, corresponding purchase and sales are recognized on the basis of expected settlement price and any differential determined subsequently is accounted for at the time of final settlement.

c) Interest income is recognized on a time proportion basis taking into account amount outstanding and applicable interest rate..

### 7. Property, Plant and Equipment (PPE)

PPE is recognized when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Freehold land is carried at historical cost. All other items of PPE are stated at cost net of tax/duty credits availed, if any, less accumulated depreciation and cumulative impairment. Cost includes expenditure that is directly attributable to the acquisition and installation of such assets

PPE not ready for the intended use on the date of the Balance Sheet is disclosed as “capital work-in-progress”.

#### Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the WDV method to allocate their cost, net of their residual values, over their estimated useful lives specified in schedule II to the Companies Act, 2013.

### 8. Intangible assets

Intangible assets are recognized when it is probable that the future economic benefits that are attributable to the assets will flow to the Company and the cost of the asset can be measured reliably. Intangible assets acquired by the Company are measured at cost less accumulated amortisation and any accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition and installation of such assets .

#### **Amortisation**

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values using the straight-line method over their estimated useful lives.

The intangible assets are amortised over the estimated useful lives as given below:

Type of Asset	Life
Trade Mark and Brand	5 years

### 9. Impairment of Non Financial Assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use.

### 10. Inventories

Inventory is valued at cost or net realizable value whichever is lower. Cost includes all non refundable taxes and expenses incurred to bring the inventory to the present location. Cost is determined using the Weighted Average method of valuation for Raw Material, Work in Progress and Finished Goods. Traded Goods are valued at actual cost.

## Notes forming part of the Financial Statements

### 11. Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Other borrowing costs are expensed in the period in which they are incurred.

### 12. Provisions & Contingencies

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events for which it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated as at the balance sheet date.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but will probably not, require an outflow of resources. Information on contingent liabilities is disclosed in the notes to financial statements unless the possibility of an outflow of resources embodying economic benefit is remote.

A contingent asset is not recognised but disclosed in the financial statements where an inflow of economic benefit is probable.

### 13. Leases

Leases where the lessor effectively retains substantially all the risks and benefits of ownership over the lease term are classified as operating lease. Lease payments for assets taken on operating lease are recognised as an expense in the Profit and Loss Account on a straight-line basis over the lease term.

### 14. Income tax

Income tax expense for the period is the tax payable on the current period's taxable income based on the applicable income tax rate and changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses. The current income tax charge is calculated in accordance with the provisions of the Income Tax Act 1961.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted at the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences and brought forward losses only if it is probable that future taxable profit will be available to realize the temporary differences.

Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

### 15. Employee benefits

#### a) Short-term obligations

All employee benefits falling due wholly within twelve months of rendering the service are classified as short term employee benefits. These are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

#### b) Post-employment obligations i.e.

- Defined benefit plans and
- Defined contribution plans.

#### Defined benefit plans:

The Company's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets. The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. Remeasurements are not reclassified to profit or loss in subsequent periods.

## Notes forming part of the Financial Statements

### Defined contribution plans:

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due.

## 16. Financial instruments

### Initial Recognition

Financial instruments i.e. Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial instruments are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial instruments (other than financial instruments at fair value through profit or loss) are added to or deducted from the fair value of the financial instruments, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial instruments assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

### Subsequent Measurement

#### **Financial Assets**

All recognised financial assets are subsequently measured at amortized cost except financial assets carried at fair value through Profit and loss (FVTPL) or fair value through other comprehensive income (FVOCI).

#### a) Equity investments (other than investments in subsidiaries, associates and joint venture)

All equity investments falling within the scope of Ind-AS 109 are mandatorily measured at Fair Value Through Profit and Loss (FVTPL) with all fair value changes recognized in the Statement of Profit and Loss.

The Company has an irrevocable option of designating certain equity instruments as FVOCI. Option of designating instruments as FVOCI is done on an instrument-by-instrument basis. The classification made on initial recognition is irrevocable.

If the Company decides to classify an equity instrument as FVOCI, then all fair value changes on the instrument are recognized in Statement of Other Comprehensive Income (SOI). Amounts from SOI are not subsequently transferred to profit and loss, even on sale of investment.

#### b) Derecognition

A financial asset is primarily derecognized when the rights to receive cash flows from the asset have expired, or the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement; and with that a) the Company has transferred substantially all the risks and rewards of the asset, or b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

#### c) Impairment of financial assets

The Company applies the expected credit loss model for recognising allowances for expected credit loss on financial assets measured at amortised cost.

#### **Financial Liabilities**

##### **Classification**

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

##### **Subsequent measurement**

Loans and borrowings are subsequently measured at Amortised costs using Effective Interest Rate (EIR), except for financial liabilities at fair value through profit or loss. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. Amortisation is included as a part of Finance Costs in the Statement of Profit and Loss

Financial liabilities recognised at FVTPL, including derivatives, shall be subsequently measured at fair value.

#### a) Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

## Notes forming part of the Financial Statements

### Derivatives financial instruments

The Company uses derivative financial instruments, such as forward currency contracts to mitigate its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

### Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

### Re-classification of financial instruments

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest. The Company has not reclassified any financial asset during the current year or previous year.
